Dual citizen: Australia & Hong Kong
DOB: 19 March 2005

EXPERIENCE

Equity Research Intern

CLSA | June – July 2026

- Supported analysts on a presentation for private wealth clients diversifying into US markets
- Built out a valuation model for SpaceX with the covering analyst
- Maintained the research spreadsheets and models used across the desk

Research Analyst

Private equity fund (name withheld at the fund's request) | Dec 2025 – Present

- Ad-hoc research on industries and sectors of interest to the principals

Asset Research

Worthington Clark | Sept 2025 – Present

- Research to identify lost assets for businesses and individuals across Australia

Trading Desk Intern

Ovata Capital Management | Dec 2024 – Feb 2025

- Researched equities and macro trends to support investment ideas
- Shadowed portfolio managers; attended the Goldman Sachs APAC Conference

Business Development Manager

HK Sports Clinic Academy | Dec 2023 – Feb 2025

- Developed marketing and financial plans for expansion
- Led outreach across youth fitness and wellness segments

EDUCATION

Bachelor of Economics — Finance & Financial Economics

University of Sydney | 2024 – Nov 2026

Australian International School, Hong Kong

HSC | 2022 – 2023

- 1st in Year 11 Economics · Economics Prize (Year 12)

EXTRACURRICULAR

Community Security Volunteer (CSG NSW)

March 2025 – Present

- One of 55 graduates from 100 recruits, now protecting Sydney synagogues

Elite Football

- HK National Youth Teams (U11–U15) · Chelsea Soccer School HK · Brooke House Academy UK

SKILLS

- Excel (Advanced), Financial Modelling, Valuation, Data Analysis, PowerPoint
- Python, SQL, Git, Anthropic API, Claude Code

AI PROJECTS

HSC Accelerator — Education venture run end to end; an agent system turned ad and sales data into five-day scale-or-kill calls. A\$194–281/day revenue on A\$80/day ad spend.

Agent content pipeline — Six interlocking Claude Code skills running a full content operation.
github.com/adamkanevsky02-oss/agent-content-pipeline

Jarvis — Multi-agent system running a wellness brand: three specialists and a Chief of Staff over a shared vault.

AI Usage Coach — CS50x final project. Python/Flask app parsing Claude Code sessions into weekly summaries via the Anthropic API.

ACCOLADES

- Hackathon winner — AI agent dashboard for Bipolar Australia
- 1st in Year 11 Economics
- Economics Prize (Year 12)
- Represented Hong Kong at youth level (football)

LANGUAGES

- English (native) · Russian (basic)
